DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12, 13, 20 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, line 9, there is no support found in the specification for the “function” being “a closed form”.

Claim 13 is rejected as not overcoming the indefiniteness discussed above with claim 12.

Claims 20 and 21 are rejection for similar reasons for claims 12 and 13.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12 and 20 are also rejected under 35 U.S.C. 102(e) as being anticipated by Otsuka (USPN 6,737,912). Otsuka discloses, in Fig. 2-4, a circuit that will provide the method comprising: “providing a voltage divider circuit having a first transistor (P40)” and “a second transistor (P41)”; “applying the power source voltage (VDD)”.

Claims 12 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Majid et al. (USPN 6,518,814). Majid et al. discloses, in Fig. 2-4, a circuit that will provide the method comprising: “providing a voltage divider circuit having a first transistor (42)” and “a second transistor (46)”; “applying the power source voltage (VHV)”.

Examiner has fully considered Applicant’s remarks for the above rejection and has not found them to be persuasive. Contrary to Applicant’s remarks, Applicant’s specification makes it clear circuit having this structure have the generic equation shown in paragraph 39. Thus, the applied references meet the claim language.

Allowable Subject Matter

Claims 13 and 21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 13 and 21 are otherwise deemed allowable because none of the cited prior art references have the design parameters to provide the specific equation claimed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
